

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-20 (canceled)

Claim 21): (previously presented) A communication apparatus for transmission of a message, disposed therein or thereupon, to recipients other than the user, comprising:

- a) a substrate;
- b) machine readable data disposed upon or within said substrate comprising commands directing a communication device to transmit said message, and additional machine readable commands and additional data disposed upon said substrate, to said recipients;
- c) human readable data disposed upon or within said substrate, fully disclosing at least said message in a form readily interpretable and reproducible by the unaided human; and
- d) additional human readable data, disposed upon or within said substrate, that comprises full disclosure of all said machine readable data upon or within said substrate.

Claim 22) (canceled)

Claim 23) (canceled)

Claim 24) (canceled)

Claim 25) (canceled)

Claim 26): (previously presented) A communication apparatus whereby a plurality of facsimilies may be made as duplicates of human readable data and thereby function as disclosed machine readable data, comprising:

- a) a card-like substrate;**
- b) machine readable data disposed upon or within said substrate;**
- c) human readable data, disposed upon or within said substrate, and fully disclosing at least said machine readable data;**
- d) software and command data means for directing electronic and mechanical devices to transmit at least a portion of said machine readable data;**
- e) additional human readable data disposed upon or within said substrate and comprising directions for use of said communication apparatus; and**
- f) additional human readable data disposed upon said substrate and denominating other human readable data on said substrate as a full disclosure of said machine readable data.**

Claim 27): (previously presented) The communication apparatus of claim 26 wherein entry of said machine readable data into a plurality of devices transmits at least a portion of said machine readable data to intended recipients other than the user of said communication apparatus.

Claim 28): (previously presented) The communication apparatus of claim 27 wherein said substrate is card-shaped and wallet sized.

Claim 29): (previously presented) The communication apparatus of claim 28 wherein said machine readable data comprises means for reconfiguring electronic and mechanical devices to transmit data revealing the location of said telecommunication device to said

recipients .

Claim 30): (previously presented) The communication apparatus of claim 29 wherein is disposed in additional human readable data the identity of a person other than the user, who is at least one intended recipient of said machine readable data to be transmitted upon use of said communication apparatus.

Claim 31): (canceled)

Very respectfully,

Stephen P. Maginas
